

WATCH THE BIRDIE!

We've hidden 23 birds in and around WERFA park - can you spot them all?

GREAT SPOTTED WOODPECKER

Resident

Size of a Blackbird. Black and white. Male has a red patch on the back of the head. Loves peanuts.

RING-NECKED PARAKEET

Resident

Large long tailed green parrot with red bill. Pink and black ring around neck and face. Loves nuts and seeds.

CARRION CROW

Resident

Large and all-black. Clever, adaptable and fearless! Loves worms and scraps.

FIELDFARE

Winter visitor

Large Thrush stands upright. Grey head. Loves insects, worms and berries.

NUTHATCH

Resident

Plump bird like a small Woodpecker. Blue/grey above with chestnut sides and distinctive black eye stripe. Loves nuts.

STARLING

Resident

Smaller than a Blackbird. Looks black but close up also has green and purple plumage. Loves insects and fruit.

MAGPIE

Resident

Large black and white with long tail. Part of the crow family. Will eat almost anything!

PIED WAGTAIL

Resident

Small long-tailed black and white bird seen often on lawns and rooftops. Loves insects and scraps.

MISTLE THRUSH

Resident

Large thrush with black spots on it's breast and a brown back. Loves worms, insects and berries.

GREEN WOODPECKER

Resident

Large mostly green bird with yellow rump. Black moustache and red on head. Loves ants.

JAY

Resident

Colourful member of the crow family with white rump. Loves acorns, nuts and seeds.

BLACKBIRD

Resident

All-black thrush with yellow bill. Loves insects, worms and fruit.

**BLACKBIRD
(FEMALE)**

Resident
Brown thrush with spots and streaks on the breast. Loves insects, worms and fruit.

COLLARED DOVE

Resident
Small pinky brown bird with black neck collar. Loves seeds, grains and buds.

WOOD PIGEON

Resident
Large, plump grey bird with white neck. Very common. Loves crops such as cabbage and peas, nuts and berries.

GOLDFINCH

Resident
Highly coloured finch with red face and yellow wing patch. Loves seeds and insects.

ROBIN

Resident
Very common small brown bird with bright red breast. Loves worms, seeds, fruit and insects.

TAWNY OWL

Resident
Reddish brown in colour with a rounded body. Loves mice, frogs, insects and worms.

REDWING

Winter visitor
Small thrush with cream eye stripe. Orange/red patches on the breast. Loves insects, worms and berries.

BLUE TIT

Resident
Very small. Colourful mix of yellow, blue, white and green. Loves insects, seeds and nuts.

GREAT TIT

Resident
Largest of the Tit family. Black head with white cheeks, yellow breast and green back. Loves seeds, insects and nuts.

SONG THRUSH

Resident
Small brown thrush with pale creamy spotted breast. Loves worms, snails and fruit.

WREN

Resident
Very small. Pale browns with cream eye stripe. Loves insects and spiders.

These locally-painted feathered friends are a permanent fixture for everyone to enjoy. You can download copies of this checklist by visiting www.werfa.org.uk or pick up printed copies in the wooden box provided just outside the pavilion entrance.
